

FY 2009
Annual Listing of Obligated Projects
In the Louisville (KY-IN) MPA

December 2009

FY 2009 List of Obligated Federally Funded Projects

The Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) directs MPO's, such as the Kentuckiana Regional Planning and Development Agency (KIPDA), to publish a list of federally funded projects that were obligated in the preceding year. An obligated project is one in which the federal government has made a commitment to pay the federal share of the project cost. KIPDA, cooperatively with the Kentucky Transportation Cabinet (KYTC) and the Transit Authority of River City (TARC), has developed a list of projects that were obligated in fiscal year 2009 for the Louisville (KY-IN) Metropolitan Planning Area. This list of obligated federally funded projects is included in the following table and includes maintenance projects, roadway improvements, transit improvements, pedestrian walkways, and bicycle facilities that were obligated from October 1, 2008 through September 30, 2009.

The projects are shown by county and listed alphabetically by project location. The information that is shown includes the federal funding source, the amount of federal funds that were programmed in the Transportation Improvement Program, the federal funds that were obligated, and the funds remaining for future years. Information concerning the federal obligations was provided by the Kentucky Transportation Cabinet and the Transit Authority of River City. These projects can be cross-referenced in the FY 2007 – FY 2011 Transportation Improvement Program at the following link http://www.kipda.org/Transportation/MPO/Transportation_Improvement_Program.aspx where project maps are provided.

Information from the Indiana Department of Transportation (INDOT) concerning FY 2009 obligations is not available at this time. This documentation will be updated as soon as information is provided by INDOT.
