Project Name:	I-65 Intelligent Transportation Syste Deployments	m (ITS)	Total Project Cost:	\$	997,582
Funding Source:	Congestion Mitigation Air Quality (CMA	AQ) - State	Open to Public Date:		2022
Description:	Deploy five CCTV camera and vehicle de 160 to the Clark/Scott County Line, 4.5 r			MS) from 2.1	miles south of SR
Purpose & Need:	This project is part of a larger project to deploy CCTV camera and vehicle detection sites, as well as Dynamic Message Signs, from the northern terminus of this project to the southern terminus of INDOT's existing Indianapolis-area ITS / Traffic Management infrastructure south of SR 44 in Johnson County, thus completing INDOT's deployment of ITS / Traffic Management devices on I-65 from Louisville to Indianapolis. CCTV cameras and vehicle detection sites enable Traffic Management Center (TMC) System Operators to detect and verify incidents quickly and dispatching the appropriate emergency personnel quickly. This results in quicker overall response, saving lives, reducing emissions, and minimizing delay on the Interstate by restoring traffic back to normal quicker, reducing the amount of time that a queue exists, a serious safety issue on a free-flow facility such as I-65. The DMS also contributes to this by informing motorists of a downstream lane restricting incident, allowing for increased awareness of the situation and diversion in case of a closure and/or long delay.				
Change to TIP:	Add project to the TIP via Group: Safety Improvements - Indiana (2680) Program Preliminary Engineering in FY 2021 with the following CMAQ-State funds: \$87,210 (Federal) \$9,690 (Other) \$96,900 (Total) Program Construction in FY 2022 with the following CMAQ-State funds: \$810,614 (Federal) \$90,068 (Other) \$900,682 (Total)

Project Name:	Bernheim Lane Sidewalk and Ro Reconfiguration	pad	Total Project Cost:	\$	458,500
Funding Source:	Transportation Alternatives (TA) -	МРО	Open to Public Date:		2023
Description:	Construct a continuous 5-foot sidewalk on the north/east side of Berheim Lane from Dixie Highway to Algonquin Parkway. This project will add approximately 1,150 linear feet of sidewalk. Also reconfigure the roadway from a four-lane highway to two through lanes and a center, two-way left-turn lane.				
Purpose & Need:	There are no pedestrian connections on Bernheim Lane. This principal arterial connects another principal arterial (Dixie Highway) and a minor arterial (Algonquin Parkway). New sidewalks will provide safe and accessible pedestrian connections through a residential corridor to the commercial corridor on Dixie Highway and to the transit routes on Dixie Highway and Algonquin Parkway. The ADT of 4,800 makes this corridor a prime candidate for a road reconfiguration to calm traffic and improve safety for all users.				
Change to TIP:	Add project to the TIP via Group: Bicycle and Pedestrian Improvements - Kentucky (2673) Program Design in FY 2022 with the following TA-MPO funds: \$68,000 (Federal) \$17,000 (Other) \$85,000 (Total) *Program Construction in FY 2024 with the following TA-MPO funds: \$306,000 (Federal) \$76,500 (Other) \$382,500 (Total)

Project Name:	Crums Lane Sidewalk Phase 1	L	Total Project Cost:	\$	761,000	
Funding Source:	Transportation Alternatives (TA) -	МРО	Open to Public Date:		2025	
Description:	north side of Crums Lane from Cheviot construct and/or rehabilitate a continuo	onstruct a continuous 6-foot sidewalk where none currently exists and rehabilitate existing sections of sidewalk on the orth side of Crums Lane from Cheviot Drive to Janell Road. Construct a crosswalk over Crums Lane at Janell Road, then onstruct and/or rehabilitate a continuous 6-foot sidewalk from Janell Road to Dixie Highway on the south side. This roject will add and/or rehabilitate approximately 3,785 linear feet of sidewalk.				
Purpose & Need:	There are limited pedestrian connections on Crums Lane and they are often not ADA-compliant and in poor condition. This minor arterial connects a principal arterial (Dixie Highway) to a primarily residential corridor. New sidewalks will provide safe and accessible pedestrian connections to the commercial corridor and transit route along Crums Lane and Dixie Highway. A second phase to extend the sidewalk to Cane Run Road will be proposed in the near future.					
Change to TIP:	Add project to the TIP via Group: Bicycle and Pedestrian Improvements - Kentucky (2673) Program Design in FY 2022 with the following TA-MPO funds: \$102,000 (Federal) \$25,500 (Other) \$127,500 (Total) *Program Right of Way in FY 2024 with the following TA-MPO funds: \$66,000 (Federal) \$16,500 (Other) \$22,500 (Total) *Program Construction in FY 2025 with the following TA-MPO funds: \$453,000 (Federal) \$113,250 (Other) \$2566,250 (Total)

County	Jefferson	Parent ID:	N/A	Group ID:	N/A
Project Name:	East Market Street Streetscape Impro	vements	Total Project Cost:	\$	14,000,000
Funding Source:	Various		Open to Public Date:		2022
Description:	Streetscape enhancements to improve pedestrian/bicycle amenities along East Market Street from Brook Street to Johnson Street and along the following intersecting streets from Nanny Goat Alley to Billy Goat Strut Alley: Brook St., Floyd St., Preston St., Jackson St., Hancock St., Clay St., Shelby St., Campbell St., Wenzel St., Baxter Ave. and Johnson St. Enhancements include the addition of landscape medians in two separate blocks to serve as a gateway to the neighborhood and repurposing one of the existing east-bound drive lanes to provide a dedicated separate bike facility. Project length 2.1 miles.				
Purpose & Need:	This project is for the design and construction documents of the improvements East Market Street and intersecting streets within the area generally bounded by Brook Street to the west; Billy Goat Strut Alley to the north; Baxter Avenue to the east; and Nanny Goat Strut Alley to the south. Streetscape improvements should transform the vehicular and pedestrian spaces into attractive urban space that can serve cars, bikes and people. The design should accommodate and enhance the variety of properties in the neighborhood, including housing, retail, restaurant, manufacturing, and office uses.				
Change to TIP:	Remove the FY 2020 Construction phase programmed with STBG-State funds Add a Construction phase in FY 2021 with the following STBG-MPO funds: \$7,200,000 (Federal) \$1,800,000 (Other) \$9,000,000 (Total)

Description:	Restoration and rehabilitation of Hikes Lane from Newburg Road to Taylorsville Road.				
Purpose & Need:	Hikes Lane is concrete pavement and has numerous locations of failure that will be restored.				
Change to TIP:	Add project to the TIP via Group: Roadway & Bridge Preservation & Rehabilitation - Kentucky (2675) Program Construction in FY 2021 with the following STBG-MPO funds: \$3,400,000 (Federal) \$850,000 (Other) \$4,250,000 (Total)				

Project Sponsor:	Louisville Metro	KIPDA ID:	2539	State ID:	None
County	Jefferson	Parent ID:	1857	Group ID:	N/A
Project Name:	Louisville Loop Shared Use Path - McN Park Segment	leely Lake	Total Project Cost:	\$	5,500,000
Funding Source:	Transportation Alternatives (TA) -	MPO	Open to Public Date:		2021
Description:	Construct approximately two miles of new 10-12 foot wide asphalt/concrete shared use path through McNeely Lake Park. The first phase of the new shared use path will connect the recently constructed Loop path at Cedar Creek Road on the southeast side of the park to the existing park path at the west side of the McNeely Lake dam on the north side of the park. This segment of the Louisville Loop in McNeely Lake Park will include a new bridge over the lake at the dam spillway area and a trail head near the east end of the new path. The second phase of the new shared use path will connect the dam spillway area with Copper Chapel Road along the lake. This segment will include a new bridge over the lake near McNeely Lake Park Road.				
Purpose & Need:	McNeely Lake Park is a major urban park located in the southern part of Louisville which is experiencing a rapid transitio from primarily agricultural to low and medium density residential land uses. As Louisville continues to grow in this area, there is a need for better connectivity and accessiblity from both existing and approved new neighborhoods to the recreational amenities in the 746-acre park which includes athletic fields, tennis and basketball courts, a playground, and extensive path and trail system used by pedestrians, cross-country teams and others. The 100-mile Louisville Loop is a shared use path planned to traverse McNeely Lake Park as it moves across the southern part of Louisville from the Jefferson Memorial Forest to the Parklands of Floyds Fork connecting neighborhoods, schools, work places and other community facilities. The McNeely Lake Park segment of the Loop will provide better linkages for pedestrians, bicyclists and people with disabilities from nearby Wilt Elementary School and surrounding neighborhoods to the park, its recreational facilities and the existing path system. The proposed path will also provide non-motorized connectivity between neighborhoods on both the east and west sides of the park.				
Change to TIP:	Add State ID 3034.00 Revise the Open to Public (OTP) date from 2021 to 2023 Program a Design phase in FY 2020 with the following TA-MPO funds: \$150,000 (Federal) \$37,500 (Other) \$187,500 (Total) Reduce the FY 2020 Construction phase by \$150,000 (Federal) resulting in the following TA-MPO funds: \$1,849,277 (Federal) \$369,855 (Other) \$2,219,132 (Total)

Project Sponsor:	Mount Washington	KIPDA ID:	2479	State ID:	3216.00
County	Bullitt	Parent ID:	N/A	Group ID:	2673
Project Name:	Historic Memorial Multi-Use Tr	ail	Total Project Cost:	\$	550,000
Funding Source:	Transportation Alternatives (TA) -	State	Open to Public Date:	2020	
Description:	Construct one segment of Mount Washington's Historic Memorial Multi-Use Trail. Segment C includes the following: 1) 12' multi-use path buffered by a safety element: grass verge on the west side of Old Bardstown Road 2) 6' sidewalk; east side similar to downtown sidewalks; section terminating at existing sidewalk on Village Lane 3) "Historic Compass Rest Plaza" providing junction-transition between: parks, Louisville Loop & downtown 4) Safety element: traffic calming crosswalks at most intersections 5) Safety element: reduce commercial entrances to KYTC standards with curbed islands and traffic calming surfaces 6) Safety element: new traffic signals at critical intersections 7) Mitigation element: improve drainage system to eliminate road flooding and standing water (mosquito) risk and relocated drinking water line impacted by those improvements 8) Environmental element: landscaping to include pollinator friendly tree species				

Purpose & Need:	To improve bicycle and pedestrian transportation within Mount Washington including safety elements.
	Change Open to Public (OTP) date from 2020 to 2021
	Revise project description to: Construct multi-use path and pedestrian walkway along segment C of the Historic Memorial Multi-Use Trail including a Rest Plaza at Landis and US 31 EX. In addition, improve safety along the segment by reducing drainage hazards and installing a signal at Landis Lane.
	Revise purpose & need: To improve bicycle and pedestrian transportation within Mount Washington including safety elements. These facilities will be accompanied by a new signal on the north end of the project at Landis Lane in order to safely get pedestrian traffic from the east sidewalk to the west multi-use path and the connecting rest plaza and other trails.
