The county is also working on mowing, cutting trees, and completing patch work on roads. Contractors will be gearing up soon to pave and resurface roads throughout the county.

### **Spencer County**

Magistrate Jim Travis stated that everything is going smoothly, and the county is doing a good deal of mowing right now. There was a gulley wash out a few nights ago on KY 1169 and Normandy Road. **Agenda Item #6**

**MEMORANDUM**

TO: Regional Transportation Council

FROM: Randall Embry

DATE: November 16, 2021

SUBJECT: KIPDA ADD Counties Population Change from the 2020 Census

In September 2021, data from the 2020 Census was released as part of the Census Redistricting Data. This is exciting news as the long-awaited official results from the 2020 Census are beginning to be made available. While most of the changes thus far have been predictable thanks to the ongoing American Community Survey data we receive from the Census Bureau, it's nice to have official numbers as opposed to estimates. Per the Census Bureau, additional data can be expected in 2022. [Here is a link for more information.](#)

According to the Census Bureau, the South region grew at the fastest rate with an increase of 12.3%. Growth in the KIPDA ADD Counties area from the 2010 to the 2020 Census was 6.8%, from 959,091 to 1,024,497 people. Growth in the rural ADD Counties was 10.0%, from 83,360 to 91,707 people. While not as high as the rest of the South, the KIPDA ADD Counties region exceeded the Midwest's population growth rate which was 4.8%. Being an ADD area on the border of what is considered the South and the Midwest, this seems to be an expected level of growth.
