

PURPOSE OF THIS REPORT

The Annual Listing of Obligated Projects (ALOP) identifies all projects and programs, in the KIPDA Metropolitan Planning Area (MPA), which received federal obligation of funds for the 2025 fiscal year.

The ALOP is prepared within 90 days following each fiscal year to meet requirements outlined in 23 USC § 134, 49 USC § 5304, 23 CFR § 450 and 49 CFR § 613. KIPDA recognizes 2 different fiscal year calendars due to distinctions between the 2 state transportation agencies serving the region. The Indiana Department of Transportation (INDOT) fiscal year runs July 1 - June 30 while the Kentucky Transportation Cabinet (KYTC) fiscal year is between October 1 - September 30.

Only transportation projects using federal funds are listed in this ALOP. Obligated projects and programs are approved by the federal government for payment or reimbursement to the state and/or local jurisdictions for the federal share of a project's eligible costs.

The typical split for federally funded project phases is 80% federal and 20% local/match, however there are occasional variations depending on funding source specifics. The local/match amounts are not specifically identied in this report. However, like with the Transportation Improvement Program (TIP) and Connecting Kentuckiana 2050, Metropolitan Transportation Plan (MTP), they are incorporated into the total estimated project costs.

The Federal Highway Administration (FHWA) obligated projects are listed by state and county. Each project includes the KIPDA ID, State ID or Designation Number (DES), Sponsor Agency, Project Name, Project Description (including location), the Total Estimated Project Cost, the Total Cost Programmed in TIP to date and the Project Improvement Type. The federal funding category is listed per phase. The FY25 Federal Funds programmed in the TIP (if any) are listed along with the obligated project phase details.

Obligated projects may not necessarily be initiated or completed during the ALOP year and the cost of the federally obligated project phase will often be different than the total final project cost. The Remaining Federal Funds are listed per line item.

For transit projects, obligation occurs when the Federal Transit Administration (FTA) awards a grant to the eligible transit agency. The list of FTA obligated projects includes transit projects described by Grant Name and Grant Number, Project Description, KIPDA ID, and the amount of federal funds obligated.

^{*} This document contains numerous charts which may be difficult to decipher when viewing as a PDF due to sizing constraints. To view them in a larger format online use the PDF zoom feature.

FEDERAL FUNDING CATEGORY ABBREVITIONS

5307 – Transit Capital and Operating Assistance

5310 – Special Transportation Needs (i.e. Disability Services)

BRO – Federal Bridge Replacement – On System

BRX - Federal Bridge Replacement - On/Off System

BRZ - Federal Bridge Replacement – Off System

CFP - Community Project Funding

CMAQ - Congestion Management/Air Quality

HSIP – Highway Safety Improvement Program

INFRA - Infrastructure for Rebuilding America Program

IM – Interstate Maintenance

NEVI - National Electric Vehicle Infrastructure Program

NHPP - National Highway Performance Program

NHS – National Highway System

PL – Planning

PROTECT - Promoting Resilient Operations for Transformative, Efficient, and Cost-saving Transportation Program

RAISE - Rebuilding American Infrastructure with Sustainability and Equity (RAISE) Grant Program

Section 130 - Railway-Highway Crossings

STBG (formerly STP) – Surface Transportation Block Grant (Group I, III, and IV)

SRTS - Safe Routes to School

TAP – Transportation Alternatives Program

TE/TA – Transportation Enhancements/Alternatives

VRU – Vulnerable Road Users
